Cabinet Meetings More Routinized Than During Hoover Administration

WASHINGTON — Although there have been definite efforts to iron out bickering within the President's Cabinet, there still exist raw nerves and a certain resentment under the surface which seems almost impossible to eradicate.

This is due partly to the diverse elements of which the Cabinet is composed. Also, Cabinet meetings have become a mere matter of routine—possibly more so, than during the Hoover Administration.

There is no attempt to discuss general policies, no attempt to attack a problem by the Cabinet as a whole. Usually relatively minor questions are raised. Some points between Cabinet members are deliberately skirted.

Sometimes when a debate results in complete disagreement the President cuts it short and decides the matter within the next day or two himself.

Most important questions are taken up in tele-tete talks between the President and the interested Cabinet officer. This of course, is a serious drain on Roosevelt's already overtaxed time.

It also happens in many of these discussions that the President himself does most of the talking. When he is finished, such little time is left that a lot of important questions are left high-and-dry, must await the next session.

This is one of the big factors behind a lot of delayed New Deal projects.

Slippery John

No matter what the immediate outcome of the present rope, the State Department will keep its fingers crossed regarding anything which bears the handiwork of Sir John Simon, British Foreign Minister.

Career diplomats will hasten to deny it publicly, but privately they call him "Slippery John," and compare his Geneva speeches to his defense pleas before a jury.

Sir John is one of the greatest barristers in England, but under his leadership, international statesmen claim they cannot tell which way British foreign policy will jump.

Rural Industry

An important White House call the other day was Gerard Swope, head of giant General Electric.

With him, the President discussed one of his great dreams for the agricultural-industrial development of the United States. It is the establishment of small rural-industrial communities where each worker can have about ten acres of land, raise his own garden crops and work part time in an adjacent village factory.

Henry Ford has tried out in his River Rouge plants near Detroit with considerable success. Other industrialists, however, say it cannot be done on a large scale.

Mr. Swope's complete reaction is not known. But he has been willing to cooperate with the President to the extent of planning a small General Electric plant at Reidsville, W. Va., the first Subsistence Homestead project.

In Danger

Every legislation needed emergency restorative measures it is the President's social security program.

So hazardous is its condition that it will only be a shadow of what the President asked for—if it ever passes.

POPE PLEADS PEACE

Hitler Envisions Great Peace-Time Army

By H. R. Knickerbocker

LONDON, April 1—Germany was engaged in creation of her first conscript army since the war today and while initial groups shouldered their wooden trunks and marched to barracks the rest of Europe marched toward an alliance to hold the Germans in check.

Just sixteen days after Hitler's challenge to the allies, Europe now is an armed camp, whereon moves and counter-moves follow with bewildering rapidity and trumpet calls drown out the feeble tones of peace.

Scene Is Changed

Within a fortnight, the continental scene has suffered amazing alterations and the outlines of an anti-German bloc can already be discerned.

As it grows clearer, chances for a general collective system including Germany recede.

The chief factor is Britain's disavowal with Hitler's views and Britain's consequent history-making change of front towards Russia.

Captain Anthony Eden, arriving from Moscow at Warsaw, is hailed in the British press as the outstanding success of this turbulent diplomatic season.

Today's developments in the European crisis:

VATICAN CITY—Pope Pius XI, addressing cardinals in secret consistory, pleaded vigorously for peace with a warning that "massacre, ruin and extermination" would follow a new world conflict.

sharp claws. Reaching the steel bridge which spans the Scioto river, the animal made a mighty leap and found footing on the top of the steel frame work of the bridge, where it proceeded to give an exhibition of jungle gymnastic stunts. When the crowd of more than a thousand people approached, preceded by an increasing army of dogs, the animal let out another piercing scream and leaped into the river and started swimming rapidly up stream. Some of the brave canines did likewise in close pursuit, while others followed along the east and west banks of the stream.

At press time the animal was reported to be still going strong against the current, with the hundreds of dogs losing in the race. Citizens were organizing posses up the river in an effort to capture the animal with seines. — April Fool!

He also stated that stamps must be torn in two places when issued until further notice. Persons violating this provision are subject to arrest.

He promised Renick he would have someone in his place.

Mosier is a splendid speaker and should prove an acceptable substitute.

The meeting starts at 6:30 o'clock at Hanley's.

SOLONS MOVE TO ADJOURN

"Speed Action," Yoder Urges; Many Important Items Yet To Act Upon

COLUMBUS, April 1—The 91st Ohio general assembly today moved toward adjournment in two weeks as Paul Yoder, Dayton, Democratic floor leader in the senate impatiently called on Gov. Davey and House leaders to "get together" on major legislation.

Yoder today told International News Service the senate will be ready to end the current session this week if the House speeds up action on administration bills and other major legislation.

A joint school committee from the House and Senate is working to bring in a public school program that can be enacted into law this week or next and the senate finance committee has promised to act tonight on the proposed Davis bill for parochial school aid.

The senate liquor committee, after two weeks of public hearings on numerous proposed changes in the liquor laws, has intimated a new bill will be ready for a vote in the senate later this week.

Legislation proposing erection of a state bureau of criminal investigation is now in the house.

With those measures out of the way the general assembly could wind up the regular session and await the call of Gov. Davey to act on the appropriation measure and proposed tax legislation, in Yoder's opinion.

PAROCHIAL AID CONTEST NEAR CLIMAX TODAY

Senate Committee Meets Tonight; Result Up to Three Members

HOUSE TEST NEXT

Both Sides Claim Enough Votes to Win

COLUMBUS, April 1—Opposing camps today girded for their first skirmish over the Davis bill to provide state aid to parochial schools in the senate finance committee tonight.

Leaders of the group espousing the parochial school cause and opponents both claimed enough votes in committee, although three members of the 13-member senate committee still were non-committal today.

Unusual importance is attached to the committee vote on the bill of Sen. John Davis (D) of Cleveland to provide \$5,000,000 state aid to church schools and colleges with teacher training courses because of the sharp division in committee which is expected to reflect sentiment of the state senate with reference to the proposal.

Depends On Three

Fate of the measure largely depends on the votes of Senators James M. Mathews of Clark-co; J. Ralph Seidner of Youngstown and William R. Foss of Mercer-co, all Democrats.

Five other Democratic members of the committee, including Sen. W. H. Herzer of Harcom-co, chairman, are counted as supporters of the bill, while five Republican members of the body have indicated they will vote to kill the measure in committee.

Prepared for a vote against recommending the bill for passage, proponents today looked forward to an effort to take the measure from the committee and bring it on the senate floor for a vote in the event the finance group failed to kill the bill.

There will be no public hearing on the bill tonight, both sides already having been given opportunities to present their case, but the committee meeting is expected to attract a large crowd nevertheless.

Fight Amendment

Meanwhile the house prepared for a test of parochial school strength in the lower body tomorrow.

Advocates of church school aid disclosed they will attempt to obtain an amendment to the Traxler (Continued on Page Two)

Scene Is Changed

Within a fortnight, the continental scene has suffered amazing alterations and the outlines of an anti-German bloc can already be discerned.

As it grows clearer, chances for a general collective system including Germany recede.

The chief factor is Britain's disappointment with Hitler's views and Britain's consequent history-making change of front towards Russia.

Captain Anthony Eden, arriving from Moscow at Warsaw, is hailed in the British press as the outstanding success of this turbulent diplomatic season.

By International News Service Today's developments in the European crisis:

BERLIN—Reichs Leader Adolf Hitler envisions peace-time army of at least 4,000,000 men by 1950.

VATICAN CITY—Pope Pius XI, addressing cardinals in secret consistory, pleaded vigorously for peace with a warning that "massacre, ruin, and extermination" would follow a new world conflict.

MOSCOW—While Anthony Eden British lord, privy seal, hurried from Moscow to Warsaw on his important peace mission, the Soviet mouthpiece Izvestia stated Berlin has assured Russia any anti-

SOLONS MOVE TO ADJOURN

"Speed Action," Yoder Urges; Many Important Items Yet To Act Upon

COLUMBUS, April 1—The 91st Ohio general assembly today moved toward adjournment in two weeks as Paul Yoder, Dayton, Democratic floor leader in the senate impatiently called on Gov. Davey and House leaders to "get together" on major legislation.

Yoder today told International News Service the senate will be ready to end the current session this week if the House speeds up action on administration bills and other major legislation.

A joint school committee from the House and Senate is working to bring in a public school program that can be enacted into law this week or next and the senate finance committee has promised to act tonight on the proposed Davis bill for parochial school aid.

The senate liquor committee, after two weeks of public hearings on numerous proposed changes in the liquor laws, has intimated a new bill will be ready for a vote in the senate later this week.

Legislation proposing erection of a state bureau of criminal investigation is now in the house.

With these measures out of the way, the general assembly could wind up the regular session and await the call of Gov. Davey to act on the appropriation measure and proposed tax legislation, in Yoder's opinion.

PAROCHIAL AID CONTEST NEAR CLIMAX TODAY

Senate Committee Meets Tonight; Result Up to Three Members

HOUSE TEST NEXT

Both Sides Claim Enough Votes to Win

COLUMBUS, April 1—Opposing camps today girded for their first skirmish over the Davis bill to provide state aid to parochial schools in the senate finance committee tonight.

Leaders of the group espousing the parochial school cause and opponents both claimed enough votes in committee, although three members of the 13-member senate committee still were non-committal today.

Unusual importance is attached to the committee vote on the bill of Sen. John Davis (D) of Cleveland to provide \$5,000,000 state aid to church schools and colleges with teacher training courses because of the sharp division in committee which is expected to reflect sentiment of the state senate with reference to the proposal.

Depends On Three

Fate of the measure largely depends on the votes of Senators James M. Mathews of Clark-co; J. Ralph Seidner of Youngstown and William R. Foss of Mercer-co, all Democrats.

Five other Democratic members of the committee, including Sen. W. H. Hermer of Huron-co, chairman, are counted as supporters of the bill, while five Republican members of the body have indicated they will vote to kill the measure in committee.

Prepared for a vote against recommending the bill for passage, proponents today looked forward to an effort to take the measure from the committee and bring it on the senate floor for a vote in the event the finance group votes to kill the bill.

There will be no public hearing on the bill tonight, both sides already having been given opportunities to present their case, but the committee meeting is expected to attract a large crowd nevertheless.

Fight Amendment

Meanwhile the house prepared for a test of parochial school strength in the lower body tomorrow.

Advocates of church school aid disclosed they will attempt to obtain an amendment to the Traxler

SPEED URGED IN GRANT FOR CONSERVANCY

Jordan Appears In Washington; Joseph Van Meter, Director, Also There

CHILLICOTHE, April 1—Placing the Scioto-Sandusky Conservancy project on the preferred list of public works was the objective at Washington Saturday of this vast \$36,000,000 undertaking.

Alan Jordan, chairman of the Ohio Flood Control committee said the committee hoped the army engineers would soon be able to complete the surveys in the Sandusky river valley.

Plan Five Dams

Five dams are to be placed there. The seven dams in the Scioto river valley have been surveyed already; and that puts the project into tangible shape for rapid action when the other surveys have been finished.

Mr. Jordan and Joseph Van Meter, of Waverly, member of the board who succeeded Mr. E. F. Bearce, of Chillicothe held a meeting Friday with Louis Adams, of Columbus, attorney for the conservancy district and with William Fiesinger, Sandusky member of the House, to discuss further action in the project.

bill providing for a public school foundation program when it comes to the floor tomorrow.

There is no reference to state aid for church schools in the Traxler measure, which would set up a foundation program and equalization system to guarantee public schools sufficient funds to maintain a program based on \$45 per pupil in elementary grades and \$67.50 per pupil in high schools.

But friends of parochial schools expect to propose an amendment that would include church schools under the provisions of the bill. House leaders predicted the amendment would be defeated, pointing out that proponents of parochial aid have never claimed more than 52 votes in the house.

PITTSBURGH, April 1—In a low, faltering voice, Andrew W. Mellon, multi-millionaire former secretary of the treasury, today denied emphatically he conspired to defraud the federal government of taxes on his 1931 income by making "shadow sales" of stock and taking "fictitious" losses.

Testifying before the U. S. Board of Tax appeals, Mellon, appearing shy and unfamiliar with the role of witness, gave a detailed account of his financial affairs for 1931. He denied he sold stock to Union Trust Company with the understanding that it would be repurchased after the end of the year.

Mrs. Hamilton also has two other trees, a red magnolia and a white magnolia, in bloom at the present time, the entire garden presenting a beautiful early-season appearance.

TED ENTERTAINS BROTHER, FRIENDS

Milton Friedman, George Groom and Dorcy Courtwright enjoyed a real party Sunday night and early Monday.

About 4:30 o'clock Sunday afternoon while seated at the Elks' club they decided to go to Cincinnati where Friedman's brother, Ted Lewis (Theodore Friedman) is appearing at the Taft theatre. They left a little after 5, after Milt scraped the whiskers off his face.

They were permitted to go back stage at the Taft and Ted was plenty glad to see them. After the show he took them to the Netherlands Plaza where he royally entertained them. Ted put on a real party.

The three local men while there became acquainted with Roscoe Ates, famous liping artist of the screen and stage, and Johnny Hamp, orchestra leader, who is enjoying a vacation.

This model will give you a well-groomed, slender appearance and at the same time will place you in the ultra-fashionable category. Its yoke is interesting and different; the V-neck makes your neck and face appear slender. The ripple at the bodice front is lovely and breaks a heavy bust-line. The back of the yoke, too, relieves any heavy appearance through the shoulders—the sleeves, slender above the wrist, are gathered to conceal the more padded part of your arm.

Pattern 9339 may be ordered only in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44 and 46. Size 36 requires 4 yards 39 inch fabric.

and limited solely to an old-age pension system.

Underlying factors responsible for the bill's desperate plight are:

1. The unfriendly action of Speaker Joe Byrne in sending the measure to the Old Guard-dominated Ways and Means Committee instead of placing it in the hands of a sympathetic special committee as the President wanted.

2. The secret hostility of many Democratic members—chief among them Arizona's wealthy Mrs. Isabella Greenway—to the unemployment insurance and annuity phases of the President's program.

3. The secret desire of Congressmen from states where the Townsend plan has a strong following to jam through an old-age pension scheme of some kind in order to ease the pressure on them to support the Townsend formula.

4. The investigation of the NRA being conducted by the Senate Finance Committee which makes it difficult to get to social security until May. Inner White House circles are disturbed over the predicament, and the President is considering sending a sharp message to Capitol Hill demanding action.

Such a "crackdown" may do the trick—but it is a long shot.

PATTERN 9339

If you have seen the exquisite prints in cottons and silks the shops are showing, you undoubtedly long for a new frock which will show the print—and you—to best advantage. This model will give you a well-groomed, slender appearance and at the same time will place you in the ultra-fashionable category. Its yoke is interesting and different; the V-neck makes your neck and face appear slender. The ripple at the bodice front is lovely and breaks a heavy bust-line. The back of the yoke, too, relieves any heavy appearance through the shoulders—the sleeves, slender above the wrist, are gathered to conceal the more padded part of your arm.

Pattern 9339 may be ordered only in sizes 16, 18, 20, 34, 36, 38, 40, 42, 44 and 46. Size 36 requires 4 yards 39 inch fabric.

WHAT IS BEHIND HITLER'S GESTURE

CARLTON BEALS, writing in the New Republic, offers an explanation of Mexico's warfare against the church which suggests the line of reasoning and the motives which may have actuated Chancellor Hitler in his abrogation of the Treaty of Versailles and his determination to ignore restrictions on Germany's military establishment.

Mr. Beals is a veteran American student of Mexico who evaluates Mexican policies from the radical viewpoint, with no suspicion of clerical sympathies. He says there is discontent because the present regime has failed to carry out some of its major promises to its revolutionary supporters, and that the national revolutionary party, upon which the regime is based, is seriously rent with factional strife. It baits the church to hold its power, striving through its assaults upon religion to forge a new unity for its own partisans and bridge the inner contradictions of its own hybrid class composition.

Mexico, in short, is seeking to distract the mind of its people from vital government failures, and Chancellor Hitler's regime is following similar principles of strategy, with important variations as to details of their application.

Through his formal disavowal of Germany's obligations under the military provisions of the peace treaty, Chancellor Hitler has stimulated the German spirit by kindling the delusion that he has liberated the people from the "bondage of Versailles."

The effect will be that for awhile, at least, the thoughts of Germans will be removed from the rapidly developing internal crisis. Unemployment has been growing faster than official statistics would indicate, the total number of jobless being between six and seven millions. Domestic business activity is slowing down at a disconcerting rate, while in the meantime Germany's foreign trade grows continually worse.

It is not illogical, under the circumstances, to assume that Hitler has acted while under the fear of the domestic situation and that through this grandiose gesture of defiance the old enemies he hopes to inspire an outburst of patriotic fervor which will allay the spreading unrest. Just how he expects to deal with the realities of the situation, as represented by the wrath and the overwhelming military power of neighboring nations, is a question which cannot readily be answered.

MR. WHITE SUCCUMBS

IT APPEARS that in Kansas the mighty have fallen. The Emporia Gazette is blooming with comic strips and its renowned editor, Bill White, is passing the incident off with a grin. Not so many years ago the Emporia savant was quoted as saying that if ever there was a comic strip printed in the Gazette it would be over his dead body. But there it is; one issue containing twenty-nine comics, and Bill White alive and well.

But most people will say it's all right, Brother White. Particularly will the publishers of newspapers understand. They have been through it, and they will know that Mr. White has been steadfast in his rugged individualism longer than most. They too have made resolutions . . . and Bill White's explanation that he made his concerning comic strips when he still believed in fairies is acceptable. The last few years would shatter almost anybody's beliefs.

A good husband and father is one who doesn't try to interfere with the way his money is spent.

A hick town is a place where the men don't blame Bill for getting drunk with a wife like that.

Over five thousand Americans competed in the recent contest for the biggest liar in the United States, which is just a suggestion of our natural resources in this particular field.

Looking Back In Pickaway County

FIVE YEARS AGO

Dr. Howard Jones, local historian, gave an interesting and educational talk to the Kiwanis club on the early history of Circleville and Pickaway Co.

The location of the "Road to Remembrance" to be dedicated to the soldiers who lost their lives in the World War, was changed from north of Circleville to a point on Route 23 near Triangle Farms, south of the city, and 89 trees planted.

The Witten confectionery was sold to A. W. Phillips, closing a business association in Circleville covering a period of 50 years.

15 YEARS AGO

The capital stock of the Franklin Shoe Co. was increased from \$25,000 to \$50,000 and the offices moved from Columbus to Circleville. John C. Goeller and John N. Butler, Circleville, were elected to the board of directors.

Misses Margaret and Mary O'Donnell sold their home on 42 Ohio-st to Harley Kunkle and moved to Detroit, Mich., to make their home with their brother Thomas O'Donnell.

The United Brethren church at Ashville conducted a successful campaign to wipe out the building debt of \$6,000. The coveted goal was reached Easter Sunday at an all-day meeting.

25 YEARS AGO

One thousand electric lamps

and Court-sts throughout the business section. Business men contracted for the lights to be turned on for four hours each Saturday night during centennial year.

Williamsport, Monroe-twip and Mr. Sterling were having mad dog scares and orders were issued to muzzle all dogs running at large. Two children had been bitten by a dog presumably afflicted with rabies and were being given treatment.

Joseph Moffit, messenger for the Western Union, entered the telephone service as a full-fledged operator. He was succeeded as messenger by William Hudson.

A Thought for Today

"But he that is greatest among you shall be your servant."

GYPSY GIRL

THE STORY OF AN IMPASSIONED ROMANCE

McDONALD READER

READ THIS FIRST:
Consuelo, a beautiful gypsy girl who longs to dance, is loved by the Dummy, a deaf mute, and Marcia. She despises her mother, Anna, but she is fond of her father, Gustav. Gustav tempts Consuelo with a large amount of money to marry him. But on her wedding day she boards a train for New York on which are riding Stewart Blackmire, theatrical producer; Doug, his secretary; and Bill, a friend. Consuelo had danced for them 10 days previously when their private car had been waiting on a railroad siding in Iowa. Doug takes the gypsy into Stewart's car. Stewart telegraphs his publicity agent and also his friend, Louise, telling her not to meet the train. Consuelo throws her arms around him. In New York a series of public stunts prepares Consuelo for her debut in the Polka. Gustav watches her everywhere she goes. Longing for green grass, the gypsy leaves her hotel alone and finally gets into Central Park, where she bathes her tired feet in a fountain pool—and is arrested.

(NOW GO ON WITH THE STORY)

CHAPTER 23
BACKSTAGE was waiting. The musicians were tuning up and idly strumming the piece they were to play for the gypsy. The lights were set, ready to be turned on. Down in the dark house were Goldberg and his staff. Blackmire had not yet arrived. Backstage there were curious members of the cast. Some wondered that L'Ville was coming down to see the gypsy dance. Someone else said that L'Ville was furious because the gypsy had gotten so much publicity.

Hadley, the stage manager, was waiting for Dalstrom and the girl. Rehearsal was scheduled for 10 o'clock and it was well after that now and they had not come in. He ran through one of the numbers that was being changed. Still he waited. He was called down front and explained that the gypsy was not there yet.

Goldberg chewed the end of his cigar. "If we got another late one in this show she'll go out quick as a wink and I don't care what Blackmire says. Lou!" he meant Louise L'Ville. "Is enough to drive a man out of his noodle without another temperamental dancer on my show?"

Doug was just in time to hear the end of the comment. "She'll be here all right, Goldie." "What do you know about this?" "Nothing—nothing—at all." And Doug walked around to backstage. He put in a call for Stewart and was informed that Blackmire had already left for the theater. He called Dalstrom and finally raised him at the hotel. Doug listened to the story of the girl's disappearance, then casually suggested that the police station might be the logical place to look for her.

He waited backstage and stopped Stewart when he came in. He told him what he knew and advised him to go down and look for the girl. Doug waited and kidded the girls who were there and talked Hadley into trying to find the girl.

The advertising department tells me this is National Want Ad week, and that I am permitted to make my wants known in this column. At the regular advertising rates. Now there are a heck of a lot of things I want that I don't believe could be secured through the medium of advertising, although I'm sold on the general idea.

But I do want to add that there's no better way of contacting the buying and selling public than through the classified ads. In the first place, everybody reads them if for no other reason than curiosity. In fact, it is the most important part of the paper to many readers. They want to know what is for sale, for rent, what has been lost or found, or what people want to buy—and why. It's a natural born curiosity in the human family.

CONTRACT BRIDGE

By E. V. SHEPARD, Famous Bridge Teacher

BRILLIANT ACCOMPLISHMENT
FOR YEARS I have known of the enthusiasm for contract bridge in Calgary, Alberta. The following sample of brilliant bidding and play has just been received from an old Calgary friend, Mr. Fred J. Renfrew. The hand appeared in the Renfrew club, with Mr. A. L. Barron sitting South and Mr. G. T. Woodside playing North. Both bidding and play are well worth studying.

Bidding went: South, 1-Heart; West, 2-Diamonds; North, 3-Diamonds, showing powerful support for his partner's call, and no losers in opponent's suit—the best possible method of spurring South to a slam attempt; East, 3-Spades; South had to pass, and so did West; North, 4-Spades, forcing partner's response (club hearts, or shift into no trumps), or shift into no trumps.

Dummy was put in the lead with his last trump. Upon four good clubs the declarer discarded his last spade and his three lowest diamonds, giving his side 10 straight tricks. South used his last trump to ruff a spade from dummy. He led his K of diamonds. The defenders won their first and last trick, as West had nothing to lead back except a losing diamond, just giving the declarer side its small slam.

Another method of fulfilling the contract is to cross-ruff the hand, being careful to leave two rounds only of winning clubs when dummy is in with the Ace of spades. Perhaps this method is as safe as the one mentioned by South.

AJAX STILL DEFYING THE LIGHTNING

THEATRES

AT THE CLIFTONA
Check up another screen oddity for Hollywood.

So large is the cast and so far-flung are the locations of "David Copperfield," currently playing at the Cliftona Theatre, that almost half the players never met the other half, either socially or professionally, during the time the picture was being made.

George Cukor, the director, pointed out this strange fact. He believes it to be one of the first pictures ever made in which each of the players, at some time or another, did not meet all the others.

W. C. Fields, playing Mr. Micawber, has never to this day met Lionel Barrymore, playing Dan Peggotty, and does not meet him at all in the picture. Nor does Barrymore come into contact at any time with Edna May Oliver, playing Aunt Betsy; Lewis Stone, playing Mr. Wickfield; Madge Evans, Roland Young or Maureen O'Sullivan.

Basil Rathbone never meets Frank Lawton, playing the adult "David Copperfield," and does not know him "off-stage."

WHAT IS BEHIND HITLER'S GESTURE

CHARLTON BEALS, writing in the New Republic, offers an explanation of Mexico's warfare against the church which suggests the line of reasoning and the motives which may have actuated Chancellor Hitler in his abrogation of the Treaty of Versailles and his determination to ignore restrictions on Germany's military establishment.

Mr. Beals is a veteran American student of Mexico who evaluates Mexican policies from the radical viewpoint, with no suspicion of clerical sympathies. He says there is discontent because the present regime has failed to carry out some of its major promises to its revolutionary supporters, and that the national revolutionary party, upon which the regime is based, is seriously rent with factional strife. It bails the church to hold its power, striving through its assaults upon religion to forge a new unity for its own partisans and bridge the inner contradictions of its own hybrid class composition.

Mexico, in short, is seeking to distract the mind of its people from vital government failures, and Chancellor Hitler's regime is following similar principles of strategy, with important variations as to details of their application.

Through his formal disavowal of Germany's obligations under the military provisions of the peace treaty, Chancellor Hitler has stimulated the German spirit by kindling the delusion that he has liberated the people from the "bondage of Versailles."

The effect will be that for awhile, at least, the thoughts of Germans will be removed from the rapidly developing internal crisis. Unemployment has been growing faster than official statistics would indicate, the total number of jobless being between six and seven millions. Domestic business activity is slowing down at a disconcerting rate, while in the meantime Germany's foreign trade grows continually worse.

It is not illogical, under the circumstances, to assume that Hitler has acted while under the fear of the domestic situation and that through this grandiose gesture of defiance the old enemies he hopes to inspire an outburst of patriotic fervor which will allay the spreading unrest. Just how he expects to deal with the realities of the situation, as represented by the wrath and the overwhelming military power of neighboring nations, is a question which cannot readily be answered.

MR. WHITE SUCCUMBS

IT APPEARS that in Kansas the mighty have fallen. The Emporia Gazette is blooming with comic strips and its renowned editor, Bill White, is passing the incident off with a grin. Not so many years ago the Emporia savant was quoted as saying that if ever there was a comic strip printed in the Gazette it would be over his dead body. But there it is; an issue containing twenty-nine comics, and Bill White alive and well.

But most people will say it's all right, Brother White. Particularly will the publishers of newspapers understand. They have been through it, and they will know that Mr. White has been steadfast in his rugged individualism longer than most. They too have made resolutions . . . and Bill White's explanation that he made his concerning comic strips when he still believed in fairies is acceptable. The last few years would shatter almost anybody's beliefs.

Looking Back In Pickaway County

FIVE YEARS AGO

Dr. Howard Jones, local historian, gave an interesting and educational talk to the Kiwanis club on the early history of Circleville and Pickaway-co.

The location of the "Road to Remembrance," to be dedicated to the soldiers who lost their lives in the World War, was changed from north of Circleville to a point on Route 23 near Triangle Farms, south of the city, and 89 trees planted.

The Witten confectionery was sold to A. W. Phillips, closing a business association in Circleville covering a period of 90 years.

15 YEARS AGO

The capital stock of the Franklin Shoe Co. was increased from \$25,000 to \$50,000 and the offices moved from Columbus to Circleville. John C. Goeller and John N. Butler, Circleville, were elected to the board of directors.

Misses Margaret and Mary O'Donnell sold their home on E. Ohio-st to Harley Runkle and moved to Detroit, Mich., to make their home with their brother, Thomas O'Donnell.

The United Brethren church at Ashville conducted a successful campaign to wipe out the building debt of \$6,000. The coveted goal was reached Easter Sunday at an all-day meeting.

25 YEARS AGO

One thousand electric lamps were installed and lighted Main

GYPSY GIRL

READ THIS FIRST:

Consuelo, a beautiful gypsy girl who longs to dance, is loved by the Denny, a deaf mute, and Marcu. She despises her mother, Anica, but is fond of her father, Girtza. Marcu tempts Consuelo with a huge diamond and she agrees to marry him. But on her wedding day she boards a train for New York on which are riding Stewart Blackmire, theatrical producer; Doug, his secretary, and Bill, a friend. Consuelo had danced for them 10 days previously when their private car had been waiting on a railroad siding in town. Doug takes the gypsy into Stewart's apartment and tells his friend, Louise, telling her not to meet the train. Consuelo throws her arms around him. In New York a series of publicity stunts prepares Consuelo for her debut in the Folies. Crowds watch her everywhere. Longing for green grass, the gypsy leaves her hotel alone and finally gets into Central Park, where she bathes her tired feet in a fountain pool—and is arrested.

(NOW GO ON WITH THE STORY)

CHAPTER 23

BACKSTAGE was waiting. The musicians were tuning up and idly strumming the piece they were to play for the gypsy. The lights were set, ready to be turned on. Down in the dark house were Goldberg and his staff. Blackmire had not yet arrived. Backstage there were curious members of the cast. Someone whispered that L'Ville was coming down to see the gypsy dance. Someone else said that L'Ville was furious because the gypsy had gotten so much publicity.

Hadley, the stage manager, was waiting for Dalstrom and the girl. Rehearsal was scheduled for 10 o'clock and it was well after that now and they had not come in. He ran through one of the numbers that was being changed. Still he waited. He was called down front and explained that the gypsy was not there yet.

Goldberg chewed the end of his cigar.

"I've got another late one in this show she'll get out quick as a wink and I don't care what Blackmire says. Lou," he meant Louise L'Ville—"is enough to drive a man out of his noodle without another temperamental dancer on my show."

Doug was just in time to hear the end of the comment.

"She'll be here all right, Goldie."

"What do you know about this?"

"Nothing—nothing—at all." And Doug walked around to backstage.

He put in a call for Stewart and was informed that Blackmire had already left for the theater. He called Dalstrom and finally raised him at the hotel. Doug listened to the story of the girl's disappearance, then casually suggested that the police station might be the logical place to look for her.

He waited backstage and stopped Stewart when he came in. He told him what he knew and advised him to go down and calm Goldie and fight for the rights of the little gypsy "gal". Doug waited and kidded the girls who were there and talked Had-

ley into trying out one of the ponies for her voice and succeeded in using up three-quarters of an hour.

He was trying to think of something else when Consuelo and Dalstrom walked in. The girl was taken by Hadley and the stage director and Doug crossed over to Dalstrom.

"Well, Jim, was I right?"

"Yes," Dalstrom tipped his hat on the back of his head and snipped his brow. "I'm just a bit of a long-nosed fellow."

EARLY REPORT SHOWS TICKET SALES STRONG

Value of Early Purchase of Ticket Explained; Doors to Open at 6 O'clock

Brisk ticket sales were reported today by many stores having outlets for the Waterloo-CAC benefit game Friday evening, the proceeds of which will be turned over to Art Steele and George Vierebome.

Tickets, adults selling for 50 cents and others selling for 25 cents to persons under 15 years of age, have been placed in points of vantage throughout the city and county.

Buy Tickets Early

From present indications the gymnasium at the CAC will probably be filled. It is believed about 1,000 persons can be accommodated. The value of buying tickets in advance is seen under the plan adopted by the promoters. All persons who have purchased tickets prior to Friday noon will be permitted to enter the gymnasium between 6 o'clock and 7:30 to take any seat available. At 7:30 tickets will be put on sale at the door for all who have not purchased them prior to Friday noon.

This means that all who wait until Friday night to make up their minds to buy tickets will have to take whatever seats are left after those who have tickets in advance have taken their seats.

As said before, the doors will open at 6—for those with tickets—with a preliminary between the Williams Grocers of Commercial Point and a Pickaway-two team starting at 6:30 for the entertainment of persons who arrive early. Johnny Heiskell will referee this game. It will begin on the minute scheduled.

Practice Is Called

Manager Judy Gordon of the CAC team has called a practice for Tuesday evening at which time he will get a line on the athletes he has at hand to combat the Waterloo Wonders, undoubtedly the greatest attraction in Ohio basketball today. Gordon will have the following to choose his starting lineup from: Merriman, Purcell, Barnes, Scoles, Saunders, Parks, Hegge and Eby.

There will be no height advantage for either team. Orlyn Roberts, the Wonder center, and Joe Barnes are well-matched in size. Wyman Roberts and Curt McMahon will match Saunders and Merriman. Carl Purcell has a little edge on Wiseman while the other starter for Waterloo, unknown as yet, will play either Scoles, Hegge, Parks or Eby.

CHAMP FIGHTS FOR BEST GUARANTEE

CHICAGO, April 1—"Whoever guarantees us the biggest purse will get Baer."

Thus Ancil Hoffman, manager of Max Baer, settled the great promotional haggles over the services of the heavyweight champion here today.

After long conferences with Madison Square garden officials, representatives of New York's twentieth century club, Chicago and Detroit promoters and Joe ("We Wuz Robbed") Jacobs, manager of Max Schmeling, Hoffman emerged from his hotel suite looking as though he'd just been through a 20-round embroglio to make his announcement. An announcement, by the way, that caused ("We Wuz Robbed") Jacobs to blush with envy, to sputter and fume.

"Bunk," sputtered Joe. "Schmeling is signed to box for the Garden and so is the champion. Baer can't get out of fighting Schmeling and fight him for the Garden. Anything else Hoffman says is the bunk."

DOUBLES LEADERS FALLING IN ABC

SYRACUSE, N. Y., April 1—Three changes in the doubles leaders and four in the all-events standings had been accomplished here today by the "hot shot" bowlers from the midwest in their doubles and singles competition in the 35th annual A. B. C. classic.

Steven Demeter and Carl Snyder, Kansas City, provided the real thrill in last night's rolling when they went into second place in the doubles with 1,315 on games of 462, 449 and 404. Herb Friettag and Eli Marichich, Chicago, placed third.

Johnny Grimms of Detroit went into second place in the "all-events" bowling. Bill Robinson of Louisville went into third, and Joe Bodis of Cleveland totaled 1,867 pins to maintain his hold on the individual high.

STAR SHORTSTOP REMAINS IN SOUTH

NEW ORLEANS, April 1.—Rained out of their game yesterday, the Cleveland Indians and the New York Giants started their barnstorming trip toward New York today. Bill Knickerbocker, star shortstop who is recovering from an appendicitis operation was left behind for light workouts with the Pelicans until he regains sufficient strength to join the Tribe in the north. Manager Billy Evans also dropped two rookies from the list, ordering Milton McIntyre, former University of California star, to the Indians farm at Zanesville, O., and instructing Catcher Bob Garback to remain here until he can find a minor league berth for him.

About This And That

BY THE

No Gymnasium?

Reports that the Waterloo Wonders have no gymnasium practice on a hillside and play no home games were debunked in Sunday's Dispatch. Fine pictures of the Waterloo squad in a nice shining gymnasium were shown—

We hope the CAC gymnasium is crowded to the ceiling Friday evening—Don't Art Steele and Tubby Vierebome deserve something from Circleville fans for the splendid entertainment they have provided on the basketball court and in other lines of sport—

Benton Belted

Larry Benton, veteran right handed hurler, is having a tough time finding a job—He was tried by the Giants after Cincinnati cast him off but was shellacked in his first effort—Sunday he was tested by the Boston Braves; the result, a home run and triple and four runs in the first inning off the bats of the Yankees—

Would Limit Games

The "audacity" of the Waterloo team in playing nearly 100 basketball games this season has aroused the ire by Kingfish H. R. Townsend who has declared he's going to stop it—Only 20 games in a regular schedule is Townsend's plan—A heavy schedule such as Waterloo has played is not the

best for everyone concerned but think how many fans would have been denied the privilege of seeing this great team had the Wonders been limited to only 20 games—

REDS MOVE NORTH

TAMPA, Fla., April 1—The Cincinnati Reds had deserted their spring training camp here today to start the trip back north in

easy stages. Their first stop was at Winter Haven, where they will remain for three days although making a fast trip to Orlando this afternoon for an exhibition with the Brooklyn Dodgers. The Reds came away second best, 8 to 3, in a game with the St. Louis Cards yesterday. They were able to snag only four hits from the pitching of Wild Bill Hallahan and Ray Harrell.

GOLF SQUADS OF CBL MEET IN THIS CITY

Tournament to be Staged Between May 17—June 21; Schedules Adopted

Pickaway Country clubs' golf course will be the scene of the Central Buckeye league meet between May 17 and June 21 with Coach Peter Herberholz in charge. The local school was assigned the tournament at the spring meeting of the league last Saturday.

The football and basketball schedules were drawn and approved and the 1935 basketball championship was awarded to Bill Zwicks Grandview Bobcats.

The annual track meet, in which the Tigers expect to play a leading part, will be held in Delaware May 10 with Coach Taylor of Willis high in charge. The league decided to hold no swimming meet since several of the schools have no training facilities.

Russell E. Kessler, Bexley prin-

cipal, was re-elected president of the league with Dwight Blauser, Grandview, as secretary-treasurer and publicity director.

The football schedule finds Grandview opening the season here on Oct. 4. The remainder of the Circleville games include: Oct. 11, at Delaware; Oct. 18, at Westerville; Oct. 25, Bexley here; Nov. 1, Marysville here.

The cage schedule will open Jan. 10 with Delaware invading the local court. Other games are: Jan. 17, at Bexley; Jan. 21, Grandview here; Jan. 24, Marysville here; Jan. 31, at Westerville; Feb. 7, at Delaware; Feb. 14, Bexley here; Feb. 18, at Grandview; Feb. 21, at Marysville; Feb. 28, Westerville here.

Coach Herberholz hopes to have a strong track squad and a good golf team. The golfers will get their first workout Friday when Columbus East's strong team invades the local course.

EARLY REPORT SHOWS TICKET SALES STRONG

Value of Early Purchase of Ticket Explained; Doors to Open at 6 O'clock

Brisk ticket sales were reported today by many stores having du-cats for the Waterloo-CAC benefit game Friday evening, the proceeds of which will be turned over to Art Steele and George Vlerbome.

Tickets, adults selling for 50 cents and others selling for 25 cents to persons under 15 years of age, have been placed in points of vantage throughout the city and county.

Buy Tickets Early

From present indications the gymnasium at the CAC will probably be filled. It is believed about 1,000 persons can be accommodated. The value of buying tickets in advance is seen under the plan adopted by the promoters. All persons who have purchased tickets prior to Friday noon will be permitted to enter the gymnasium between 6 o'clock and 7:30 to take any seat available. At 7:30 tickets will be put on sale at the door for all who have not purchased them prior to Friday noon.

This means that all who wait until Friday night to make up their minds to buy tickets will have to take whatever seats are left after those who have tickets in advance have taken their seats.

As said before, the doors will open at 6—for those with tickets—with a preliminary between the Williams Grocers of Commercial Point and a Pickaway-twep team starting at 6:30 for the entertainment of persons who arrive early. Johnny Heiskell will referee this game. It will begin on the minute scheduled.

Practice is Called

Manager Judy Gordon of the CAC team has called a practice for Tuesday evening at which time he will get a line on the athletes he has at hand to combat the Waterloo Wonders, undoubtedly the greatest attraction in Ohio basketball today. Gordon will have the following to choose his starting lineup from: Merriman, Purcell, Barnes, Scoles, Saunders, Parks, Hegge and Eby.

There will be no height advantage for either team. Orlyn Roberts, the Wonder center, and Joe Barnes are well-matched in size. Wyman Roberts and Curt McMahon will match Saunders and Merriman. Carl Purcell has a little edge on Wiseman while the other starter for Waterloo, unknown as yet, will play either Scoles, Hegge, Parks or Eby.

CHAMP FIGHTS FOR BEST GUARANTEE

CHICAGO, April 1—"Whoever guarantees us the biggest purse will get Baer."

Thus Ancil Hoffman, manager of Max Baer, settled the great promotional haggle over the services of the heavyweight champion here today.

After long conferences with Madison Square garden officials, representatives of New York's twentieth century club, Chicago and Detroit promoters, and Joe ("We Wuz Robbed") Jacobs, manager of Max Schmeling, Hoffman emerged from his hotel suite looking as though he'd just been through a 20-round embroglio to make his announcement. An announcement, by the way, that caused ("We Wuz Robbed") Jacobs to blush with envy, to sputter and fume.

"Bunk," sputtered Joey. "Schmeling is signed to box for the Garden and so is the champion. Baer can't get out of fighting Schmeling and fight him for the Garden. Anything else Hoffman says is the bunk."

DOUBLES LEADERS FALLING IN ABC

SYRACUSE, N. Y., April 1—Three changes in the doubles leaders and four in the all-events standings had been accomplished here today by the "hot shot" bowlers from the middle-west in their doubles and singles competition in the 35th annual A. B. C. classic.

Steven Demeter and Carl Snyder, Kansas City, provided the real thrill in last night's rolling when they went into second place in the doubles with 1,315 on games of 462, 449 and 404. Herb Frietag and Eli Marichich, Chicago, placed third.

Johnny Crimins of Detroit went into second place in the "all-events" bowling. Bill Robinson of Louisville went into third, and Joe Bodis, of Cleveland totaled 1,867 pins to maintain his hold on the individual high.

STAR SHORTSTOP REMAINS IN SOUTH

NEW ORLEANS, April 1—Rain-out of their game yesterday, the Cleveland Indians and the New York Giants started their barnstorming trip toward New York today. Bill Knickerbocker, star shortstop who is recovering from an appendicitis operation was left behind for light workouts with the Pelicans until he regains sufficient strength to join the Tribe in the north. Manager Billy Evans also dropped two rookies from the list, ordering Milton McIntyre, former University of California star, to the Indians farm at Zanesville, O., and instructing Catcher Bob Garback to remain here until he can find a minor league berth for him.

Reports that the Waterloo Wonders have no gymnasium practice on a hillside and play no home games were debunked in Sunday's Dispatch—Fine pictures of the Waterloo squad in a nice shining gymnasium were shown—

Larry Benton, veteran right handed hurler, is having a tough time finding a job—He was tried by the Giants after Cincinnati cast him off but was shellacked in his first effort—Sunday he was tested by the Boston Braves; the result, a home run and triple and four runs in the first inning off the bats of the Yankees—

Would Limit Games
The "audacity" of the Waterloo team in playing nearly 100 basketball games this season has aroused the ire by Kingfish H. R. Townsend who has declared he's going to stop it—Only 20 games in a regular schedule is Townsend's plan—A heavy schedule such as Waterloo has played is not the

close behind. Ohio Wesleyan was third, with Marshall fourth and Cincinnati last.

The two most likely to cope with Miami are Ohio and Ohio Wesleyan, which from all indications have added to their strength this year. Due to ineligibility, Cincinnati is not rated highly, while Marshall does not have a sufficiently large schedule of track meets to prepare the Herd for the annual conference classic which this year will be held by Ohio university at Athens on May 24 and 25.

Ohio and Ohio Wesleyan will test their power in a dual meet at Delaware Saturday, April 13. If either can win the meet decisively, the victor will be considered as Miami's chief obstacle toward another Buckeye title.

Ben Hamilton, former Marshall college athlete, is back in school for post-graduate work and is advising Head Coach Tom Dandellet in spring football practice.

Fertig Has Job

Len Fertig, former Miami football and basketball star, and for the past year an assistant freshman coach at Miami, has signed a contract with the Charlotte, S. C., baseball club for the coming season. He was an all-Ohio and all-Buckeye fullback in football and a fine outfielder and catcher in the diamond sport.

The real name of Russ Cohen, Cincinnati's new head coach, is Henry Russell Cohen, but when he enlisted during the war his name was listed by the quartermaster as Harry. So he dropped the first name and used the middle one. He has a three year contract at Cincinnati.

best for everyone concerned but think how many fans would have been denied the privilege of seeing this great team had the Wonders been limited to only 20 games—

REDS MOVE NORTH

TAMPA, Fla., April 1—The Cincinnati Reds had deserted their spring training camp here today to start the trip back north in

easy stages. Their first stop was at Winter Haven, where they will remain for three days although making a fast trip to Orlando this afternoon for an exhibition with the Brooklyn Dodgers. The Reds came away second best, 8 to 3, in a game with the St. Louis Cards yesterday. They were able to snag only four hits from the pitching of Wild Bill Hallahan and Ray Harrell.

GOLF SQUADS OF CBL MEET IN THIS CITY

Tournament to be Staged Between May 17—June 21; Schedules Adopted

Pickaway Country clubs' golf course will be the scene of the Central Buckeye league meet between May 17 and June 21 with Coach Peter Herberholz in charge.

The local school was assigned the tournament at the spring meeting of the league last Saturday.

The football and basketball schedules were drawn and approved and the 1935 basketball championship was awarded to Bill Zwicks Grandview Bobcats.

The annual track meet, in which the Tigers expect to play a leading part, will be held in Delaware May 10 with Coach Taylor of Willis high in charge. The league decided to hold no swimming meet since several of the schools have no training facilities.

Russell E. Kessler, Bexley prin-

cipal, was re-elected president of the league with Dwight Blauser, Grandview, as secretary-treasurer and publicity director.

The football schedule finds Grandview opening the season here on Oct. 4. The remainder of the Circleville games include: Oct. 11, at Delaware; Oct. 18, at Westerville; Oct. 25, Bexley here; Nov. 1, Marysville here.

The cage schedule will open Jan. 10 with Delaware invading the local court. Other games are: Jan. 17, at Bexley; Jan. 21, Grandview here; Jan. 24, Marysville here; Jan. 31, at Westerville; Feb. 7, at Delaware; Feb. 14, Bexley here; Feb. 18, at Grandview; Feb. 21, at Marysville; Feb. 28, Westerville here.

Coach Herberholz hopes to have a strong track squad and a good golf team. The golfers will get their first workout Friday when Columbus East's strong team invades the local course.

COUNTY COSTS LOWER UNDER NEW PROPOSAL

Five Departments of Government Would Handle All County Business

Ohio taxpayers can save themselves many millions of dollars each year if the legislature enacts the program of county reorganization bills prepared by the Commission on County Government, according to a statement made by George B. Marshall of the commission's staff, while in the city last week. Ohio counties normally spend about \$100,000,000 a year, or approximately \$65 per family. County costs have been considerably increased by clumsy, unbusinesslike organization, needless duplication, and an excessive number of offices and agencies, the commission reports on the basis of a year's study of county government.

A sharp reduction in the number of county offices is made possible by the bills sponsored by the commission. Under Senate Bill 134, introduced by Senator Willard Campbell, five departments would take over the work now handled by some fifteen county offices, boards and commissions. The bill also provides a business head, called the county executive, who would be responsible to the people for the general supervision of county activities and would also head one of the five departments in most counties.

3 Plans Optional

Three optional plans of county government are authorized by the Campbell bill. All three plans provide for an elective board of county commissioners and a reduction in the number of offices. Under one plan the county executive is elected as in the council-mayor form of city government. A second plan is modeled on the city manager plan, and the third plan is patterned after city school organization.

Partial reorganization is permitted under other bills submitted by the Commission on County Government. These include the right of the voters of any county to combine the offices of auditor and treasurer or the offices of recorder and clerk. The consolidation of county welfare and relief activities is also made possible. Another bill provides a more businesslike system of county purchasing. The combination of auditor and treasurer alone would save counties over \$600,000 each year, it is estimated. Savings of from 10 to 20 per cent on purchasing are indicated by past experience.

Under the bills each county is free to decide whether it will continue as it is or adopt any of the combinations of offices or complete plans of reorganization permitted. The bills are optional and all major changes require a vote of the people. None of the bills alters the organization or powers of townships or municipalities in any way.

FARM INSURANCE COMPANIES MEET

Reports at the ninth annual meeting of the Farm Bureau Mutual Auto Insurance Company, to be held in Columbus April 4 and 5, will show that 1934 was the largest year in the history of the company. Assets totaling almost \$3,800,000, and a total of 133,295 policies in force were recorded at the end of the year according to George L. Cooley, Dwyer Center, president, and one of the founders of the farm bureau in Ohio.

The annual meeting will be followed by a sales convention, at which some 500 of the company's 1,500 agents will attend. Cooley said. The farm bureau company is operating in eight states at present, and is one of the ten largest mutual casualty companies in the country.

In conjunction with this meeting, the Farm Bureau Mutual Fire Insurance Company will hold its first annual meeting and sales convention. This company was established in April, 1934, and has written fire, lightning and wind-storm policies amounting to \$15,000,000 to date, according to D. M. Odaffer, Columbus, president.

Addressees at the convention will be delivered by Perry L. Green, president of the farm bureau federation, George L. Cooley, president of the automobile insurance company, and D. M. Odaffer, president of the fire insurance company. M. D. Lincoln, secretary-treasurer of both companies, will give the annual report.

FARMERS BENEFIT IN WORKS RELIEF

Rural Ohio will have an opportunity to get its share of the \$4,800,000,000 work relief fund recently appropriated by Congress, officials of the Ohio Farm Bureau stated. Of the total amount, \$100,000,000 has been allocated for rural electrification, and if surveys now being conducted by the farm bureau throughout the state show the desire and need for extending electric power into rural areas, application will be made to secure an allotment for financing the work.

It is planned by the bureau to distribute the current cooperatively. Since the plan to enter the utility field was first proposed a month ago, a great deal of enthusiasm has been shown by farmers in all sections of the state, officials say.
